

Hall School staff shall provide for individual difference, flexibility, and continuity in learning for each of our students. Our goal is to empower our learners to become effective, contributing citizens with a love of learning and a growth mindset that promotes innovation, progress, humanity, and honor.

Disciplined Thinking- Learners will seek out new information and make informed decisions based on evidence.

Knowledge Based Learning- Each learner will receive high quality instruction with a strong core of academic rigor. Learners will demonstrate academic competence.

Adaptability- Learners will work effectively in various environments and situations. They can appreciate differences, while building on commonalities.

Community Centered- Learners will work effectively and build positive relationships with others in order to build, grow and achieve common goals.

Emotional Integrity- Learners will exhibit empathy, self-awareness, conflict resolution, confidence and the ability to learn from mistakes.

Growth Mindset- Learners must believe that they can achieve anything that they set their mind to. Their abilities, skills and strengths can be developed through effort, learning, and persistence.
